

## Female contraceptive benefit

How this benefit works for those not ready to start a family.

Oral contraception, contraceptive rings and contraceptive patches and certain contraceptive injections as well as IUDs, including Mirena®, are covered from Risk on maxima **PLUS**, maxima **EXEC**, flexi**FED 4**, flexi**FED 5**, flexi**FED 1**. This includes the **GRID** and **Elect** options.

When obtained at a pharmacy, GP or a gynaecologist, the cost will automatically be covered by the Scheme and funded from the Risk Benefit. But be advised that oral contraceptive prescriptions will only be funded from Risk if prescribed for the purpose of contraception, and not for the purpose of treating acne or a skin condition.

IUDs, including the Mirena® device, are also paid from Risk but this excludes the doctor's consultation and cost of procedure, which will be paid from the member's day-to-day benefits. This benefit is available once every two years.

Contraception paid for by the Scheme from the Risk Benefit on maxima PLUS, maxima EXEC, flexiFED 4, flexiFED 3, flexiFED 2 and flexiFED 1:
