Fedhealth offers a great baby programme designed to offer the best advice, support and personalised care during every stage of pregnancy and beyond. Compiled by experts with mothers and babies in mind, Fedhealth Baby is there to make the life-changing experience of being a parent all the more special and rewarding, and a little less daunting. It offers amazing giveaways, discounts, education and support. Best of all... it's FREE!

Parents-to-be can look forward to:

Doula support (Not available on myFED)

Fedhealth covers a doula for pregnancy and birth support with a subsidy of R3 000. A doula is a pregnancy support expert and is there to guide and help you achieve your birth plan. She will visit mom-to-be during the pregnancy and support her from the onset of labour, to provide comfort in birth.

A Fedhealth baby bag

This handy baby bag is usually sent a month after registration and is packed with quality products, such as baby products from Bennetts, a baby gift pack, a pregnancy book and lovely samples to try. Everything in the bag has been especially chosen to help parents take care of their little bundle of joy from tip to toe.

Do look out for our amazing discount vouchers in your Fedhealth baby bag:
