

flexiFED 1

The ideal plan for young, healthy people who are single or in a relationship.

As part of our new flexiFED option range that gives members more control over how their cover is structured, flexiFED 1 is perfect for young single people in excellent health.

Its core benefit bundle - or the basic cover that you enjoy on this option - provides you with sound in-hospital benefits, chronic benefits, screening benefits, and day-to-day benefits, that include additional benefits and the Benefit Maximiser.

The Benefit Maximiser kicks in once your day-to-day claims have accumulated to the Benefit

Maximiser Threshold Level, provided you've submitted all your day-to-day claims. This means that certain claims, like unlimited nominated network GP visits and dentistry, will be paid from the Benefit Maximiser.

On **flexiFED 1**, you can also choose to save 25% by choosing a restricted hospital network or by just paying an R11 500 excess for planned procedures at a hospital of your choice.

On this option you also have access to a MediVault and Wallet facility, a predetermined amount available for your day-to-day medical expenses, which you only start paying back over a 12-month period once you start using it.

Please see the following pages for more details on the flexiFED 1 core benefit bundle and what it offers you.

We let you be YOU

You are now allocated money for day-to-day medical expenses available in your personal MediVault. This amount is based on your selected bundle and family composition, and is not pro-rated, i.e. even if you only join in August, you'll have the same amount available as you would have in January. To access these funds, you can transfer it, in full upfront, or in part as needed, to your Wallet.
