SECTION 1 MEDIVault TERMS AND CONDITIONS

These are the terms and conditions that will apply to the activation and use of your MediVault and Wallet, which is available to all active Members of the Scheme who are on the flexiFED range.

The maximum, interest free, loan amount that is available in your MediVault, has been pre-determined by the Scheme in line with your selected benefit option and family size or composition. You can decide how much of the total amount available in your MediVault you choose to transfer to your Wallet, at any time during the benefit year, also known as the Supercharged Flexible Savings Plan repayment amount. The maximum repayment period for the amount transferred into your Wallet will be 12 months. Should you choose to select the Supercharged Savings Plan repayment amount, a pre-determined Wallet amount will be activated. Please consult the Scheme brochure.

MediVault	This is the maximum loan available to a qualifying member. The amount available is determined by the member's selected benefit option and family size or composition. This loan only becomes available on acceptance of the terms and conditions as contained in this document.
How the MediVault works	After the member has accepted the terms and conditions and on a member's instruction, the Scheme will transfer an amount from the member's MediVault into the member's Wallet. This transfer activates the member's loan and the maximum repayment period for the amount transferred will be 12 instalments (interest-free). The first instalment will become due on the first (1st) day of the month following any transfer of an amount from the member's MediVault into the member's Wallet before the tenth (10th) of the month any transfers after the tenth 10th will become due in the following month. The member may instruct the Scheme to transfer any amount (up to the pre-determined maximum or minimum) at any time during the benefit year (also see General Provisions below).
Wallet	This is the account which will hold any amount which the member has instructed the Scheme to transfer from their MediVault. This is also the account from which the Scheme will fund any claim for a relevant healthcare service (as defined in the Medical Schemes Act 131 of 1998) once the member's Medical Savings Account has been depleted.
How the Wallet works	On instruction by the member the Scheme will transfer an amount from the member's MediVault into the member's Wallet, which will then become available to the member for the funding of any claim for a relevant healthcare service. A claim will only be funded from the member's Wallet once the member's Medical Savings Account has been depleted.
Participating Paypoint Group	A paypoint that is willing to facilitate and/or contribute 100% towards the Member's instalment.
Repayments	<ul style="list-style-type: none">• Repayments of the loan/s are in arrears and will commence on the debit order date selected following an instruction by the member to transfer an amount from the MediVault to the Wallet before the tenth (10th) of the month any transfers after the tenth 10th will become due in the following month.• If the Supercharged Savings Plan option is selected during a benefit year, the pre-determined Wallet activation will be pro-rated to ensure repayments are completed by the end of January of the following year.• The debit order deduction will be done on the selected day of the month, except where it falls on a public holiday then it will be collected on the day before or after depending on the circumstances .• Each and every loan activated must be repaid over a maximum 12-month period.
