Medical aid cover that's perfectly customisable for every member

At Fedhealth Medical Scheme, we've always taken great care to adapt to the ever-changing world we live in by providing quality medical aid plans that give members unrivalled control over how and how much they pay.

Our flagship range of flexiFED options allow members to do just that: to choose how their cover is structured, so that it perfectly fits with where they are in life, their budget and healthcare needs.

On flexiFED 2 members can:

- Choose to reduce their monthly contribution by either 10% or 25% without compromising benefits
- Enjoy cover that fits their unique health needs
- Only pay for the cover needed right now with our 30-day upgrade policy
- Enjoy more benefits paid from Risk to help day-to-day savings stretch further
- Use flexiFED 2 as a hospital plan, but with a unique day-to-day savings back-up plan in case they ever need it, OR as a straightforward savings plan.

88-year track record in healthcare

34.72% solvency

18 consecutive years of achieving a **AA- Global Credit Rating**

* As at 31 December 2023

For flexible medical aid cover that fits around the member and not the other way around, choose a flexiFED option from Fedhealth.

Fedhealth and Sanlam partnership – an exciting new door opens for healthcare in South Africa

The partnership between Fedhealth and Sanlam means a new chapter for both entities, which will benefit our members, brokers and other stakeholders alike. We look forward to stepping into this bright new future together!

The flexiFED 2 option

flexiFED 2

You're healthy and might consider starting a family.

Emergency and planned procedure hospital cover

Oncology

Maternity, infants & children

Chronic

Mental health

MORE DETAIL

Healthy members planning to start a family should consider our flexiFED 2 option. Its maternity and childhood benefits are very generous and include two antenatal scans and eight ante- and postnatal consults with a midwife, network GP and gynae, a doula benefit, a postnatal midwifery benefit and an infant hearing screening benefit. It also offers good in-hospital benefits, chronic benefits, screening benefits, and day-to-day benefits paid from Risk.

flexiFED 2 has a **Threshold benefit** that kicks in once day-to-day claims have reached the Threshold level, as long as all day-to-day claims have been submitted. Certain claims like unlimited nominated network GP visits will be paid from the Threshold benefit.

Additional benefits include **30 days of post-hospitalisation treatment** such as physio, **specialised radiology** like MRI and CT scans, and **upgrades any time of year** within 30 days of a life-changing event.

As far as day-to-day savings goes, you can either use flexiFED 2 as a hospital plan or a savings plan:

- Use your flexiFED 2 option as a **hospital plan**, and pay for any day-to-day expenses from your own pocket. However, you also have access to a day-to-day savings back-up plan to cover day-to-day medical expenses. You can only use what you need, and it's all you'll ever pay for – divided into 12 and added to your hospital contribution.
- Use it as a straightforward **savings plan** and we will make a set pool of funds available for day-to-day expenses that you pay back in equal portions over the year.

On flexiFED 2, you can also choose flexiFED 2^{GRID} and **save 10%** on your monthly contributions by using one of our 120 world-class network hospitals or choose flexiFED 2^{Elect} and **save 25%** on your monthly contribution by choosing to pay a R15 470 co-payment on all planned procedures at any private hospital (excluding emergencies).

What makes flexiFED options special?

Our flexiFED plans cover members for a range of day-to-day benefits as well – regardless of whether they choose a hospital or a savings plan. These include our **unique benefits** (see below) and certain plans offer even **more built-in day-to-day benefits** for things like optometry, maternity, childhood benefits and mental health... **all at no additional cost to the member.**

Fedhealth pays for the following **unique benefits from your Risk/In-hospital benefit:**

Unlimited GP visits

Female contraceptives

Post-hospitalisation treatment

7 days of take-home medicine

Trauma treatment at a casualty ward

Specialised radiology

The flexiFED 2 option can be perfectly customised around your different and changing needs. This option can be used as a Hospital Plan with a day-to-day back up, or Savings Plan. Plus, with Fedhealth, you only need to choose the cover you need right now - you only need to upgrade to more comprehensive options as and when life-changing events take place thanks to our unique 30-day upgrade benefit.

flexiFED 2 benefits

Preventative and screening benefit

Screenings like HIV tests, Pap smears, HPV PCR tests, cholesterol screening, wellness and preventative screenings and flu vaccines.

Lifestyle benefit

Female contraception paid from Risk.

In-hospital benefit

Unlimited accident and emergency treatment at any private hospital. Unlimited cover for planned procedures at private hospitals. Members of flexiFED 2^{GRID} and flexiFED 2^{Elect} must use network hospitals or pay a co-payment.

Chronic disease cover

Unlimited cover for 27 (CDL) chronic conditions.

Rich maternity benefit

Cover for natural deliveries, rental of water baths, epidurals and C-sections, 2x 2D antenatal scans and 8 ante/postnatal consults with midwife, network GP or gynae; Doula benefit; Postnatal midwifery benefit. PLUS many more!

Childhood benefit

Paediatric consultation without referral up to 12 months old; Infant hearing screening; Childhood immunisations; Childhood illness specialised drug benefit up to 18 years old and vision screening in neonates. PLUS many more!

Enhanced Preventative and screening benefit

HPV vaccine.

Basic dentistry in Threshold

Basic dentistry benefit once the threshold level has been reached, includes two annual consultations per beneficiary including x-rays, scaling and polishing, fillings, extractions and root canal.

flexiFED 2 plans provide:

Threshold benefit

Once day-to-day claims have accumulated to the Threshold level, certain claims will be paid from the Threshold benefit. These include basic dentistry and unlimited nominated network GP visits.

Fedhealth pays for the following unique benefits from your Risk/In-hospital benefit:

Unlimited GP visits

Female contraceptives

Post-hospitalisation treatment

7 days of take-home medicine

Trauma treatment at a casualty ward

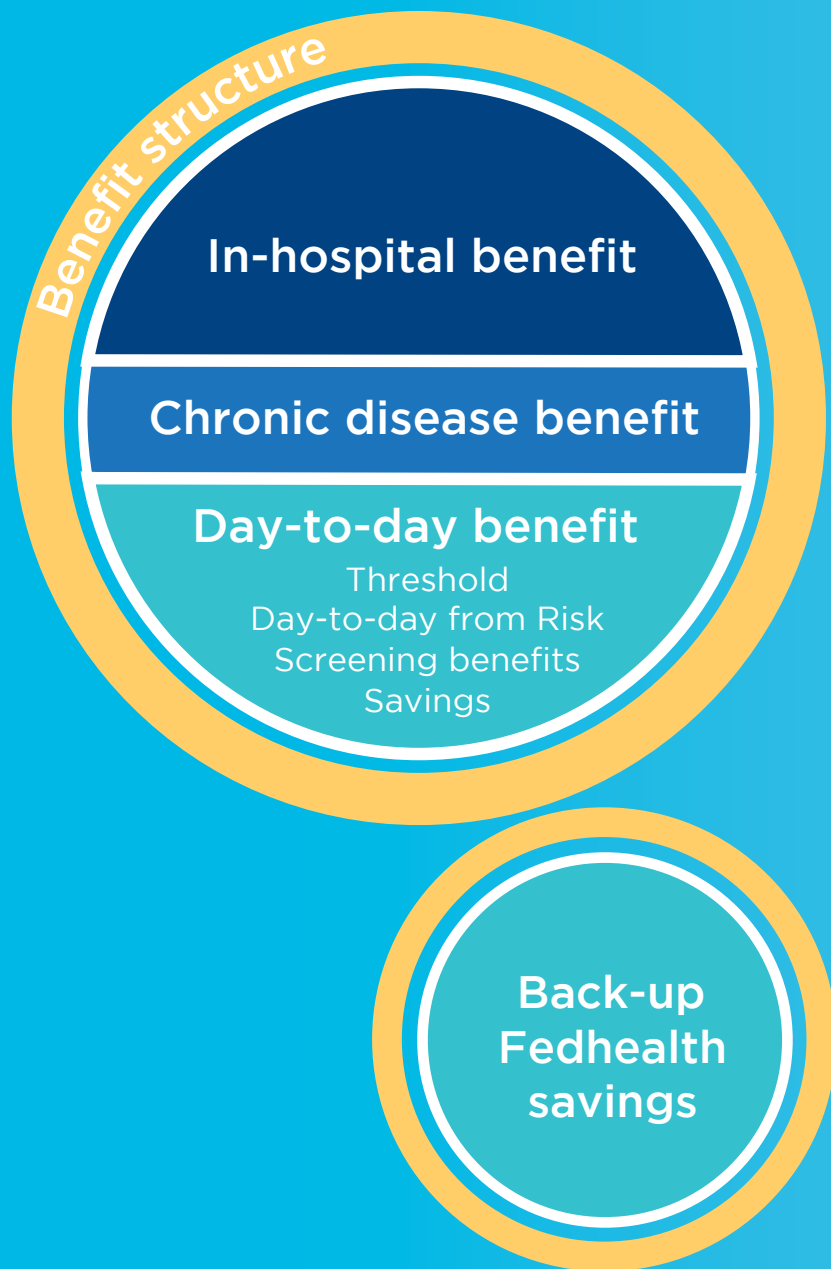

Specialised radiology

The flexiFED 2 option

- **In-hospital benefit**
Members have no overall annual limit for hospitalisation.
- **Chronic disease benefit**
This benefit covers chronic conditions on the CDL. It's covered in full up to the Medicine Price List (MPL) if members use medicine on the formulary. Any pharmacy may be used for obtaining chronic medication.
- **Day-to-day benefits**
- **Threshold**
On flexiFED 2, the Threshold benefit pays for limited day-to-day expenses once claims have accumulated to the Threshold level.
- **Day-to-day benefits paid by the Scheme**
We pride ourselves on paying more from Risk so member's day-to-day benefits last longer.
- **Screening benefit**
Preventative screenings and assessments like lifestyle screenings, wellness screenings (includes finger prick glucose and cholesterol, blood pressure, waist circumference and body mass index (BMI)) and physical screenings are covered from this benefit.
- **Savings** – The funds in the member's Medical Savings Account (MSA) will be used first if he/she has day-to-day medical expenses. Members on this option have a Nominal Savings contribution, which allows them to transfer/retain any accumulated Savings from a previous option/scheme when joining this option. Any claim submitted which is not funded from Risk will be funded from the member's Savings account first.
- **Back-up Fedhealth savings**
Once their Savings is depleted, day-to-day expenses can be funded from the member's Fedhealth Savings. The amount of Fedhealth Savings available depends on the member's family composition. Members can either use their Fedhealth Savings as part of a straightforward savings plan where they pay it back in equal portions from January each year, OR as a day-to-day back-up savings plan that's part of their hospital plan where they only pay for the portion they use – interest free over 12 months.

flexiFED

2

Customise your flexiFED 2 option to suit **YOUR NEEDS.**

You've created your flexiFED 2 option to become the perfect medical aid plan for your needs and budget. Here's how:

You've selected either a hospital plan or a savings plan.

Hospital cover

A hospital plan gives you the peace of mind that the big expenses that could arise from a hospital admission will be covered. Hospital cover is the foundation of any medical aid option.

On a hospital plan you need to pay for day-to-day medical expenses, like a pair of glasses, from your own pocket.

* Maximum Fedhealth Savings allocation per family

Unique set of benefits paid from Risk

Fedhealth is the only medical scheme to cover ALL of the benefits listed below from Risk, and not the member's day-to-day benefit. This ensures a significant saving for members since they can use their day-to-day benefit for other expenses instead.

Upgrades to higher options any time of year

Unlimited network doctor's visits

Post-hospitalisation treatment for up to 30 days after discharge from hospital

Take-home medication

Specialised radiology

Trauma treatment at a casualty ward

Female contraception

In-hospital dentistry for children under 7

Child rates up to 27 for children who are registered full time students

MORE INFORMATION

Unique set of benefits paid from Risk

Upgrades to higher options any time of year

Life happens, right? So whether you are diagnosed with a serious illness, get married or discover that a baby is on the way, Fedhealth will let you upgrade to a higher option that better suits your needs within 30 days of your diagnosis or circumstances changing.

Unlimited network doctor's visits

On flexiFED 2, this benefit kicks in once you've reached your Threshold level, provided you nominate a network GP.

Post-hospitalisation treatment for up to 30 days after discharge from hospital

This means that following a hospital stay, your treatment like physiotherapy, x-rays or pathology is covered by Fedhealth, and not your day-to-day benefit or your own pocket. Excludes follow-up consultations with GPs or specialists.

Take-home medication

Fedhealth pays for 7 days supply of take-home medication, to a maximum of R400 per beneficiary per admission, when you are discharged from hospital. The medicine can either be dispensed by the hospital and reflect on the original hospital account, or be dispensed by a pharmacy on the same day that the member is discharged from hospital

Specialised radiology

Fedhealth covers specialised radiology such as MRI and CT scans from Risk, whether it's performed in- or out-of-hospital. A co-payment of R2 960 applies to non-PMB MRI/CT scans.

Trauma treatment at a casualty ward

On Fedhealth, injuries that require medical treatment like stitches or the setting of a fractured bone, are covered whether you're admitted to hospital or not. Authorisation must be obtained within 48 hours and a co-payment of R850 per visit for non-PMBs applies to all options.

Female contraception

Oral, patches, certain injectables, contraceptive rings as well as IUDs that include the Mirena® are paid for by Fedhealth. It must, however, be prescribed by a GP or gynaecologist and is not applicable to pills prescribed for acne.

In-hospital dentistry for children under 7

We pay for dentistry performed in-hospital for children up to the age of 7. The hospital account and anaesthetist costs are paid from the in-hospital benefit while the dentist's account comes from day-to-day benefits.

Child rates up to 27 for children who are still studying

A child will be covered at child rates up to the age of 27, if they are registered as full time students. If not, they will be covered at child rates until the age of 21.

Hospital Cover

UNLIMITED PRIVATE HOSPITAL COVER

On flexiFED 2 , members may use either:

FEDHEALTH NETWORK HOSPITALS*

Co-pay applies if not used for planned hospital procedures on the GRID option.

PRIVATE HOSPITALS**

On the flexiFED 2 main option.

THIS BENEFIT COVERS:

Hospital account

Doctors and Specialists
e.g. anaesthetists
Fedhealth Network GPs and Specialists covered in full - non-network GPs and Specialists covered up to Fedhealth Rate.

Other healthcare providers
e.g. X-rays

Certain procedures in doctor's rooms

270 hospital-based PMB conditions
DSPs, formularies and referrals may apply to avoid co-pays.

Pre-authorisation must be obtained for all **planned hospital admissions**.

EMERGENCIES: members must obtain authorisation **within 2 days after hospital admission**.

An emergency is unexpected, requiring immediate treatment to avoid lasting damage to organs, limbs or other body parts, or death.

*Network option members may be treated at ANY hospital in an emergency, but will be moved to a network hospital once stabilised or face the co-pay.

** flexiFED 2 covers all admissions at any private hospital except the following hospitals: Zuid-Afrikaans Hospital (City of Tshwane), Arwyp Medical Centre (Ekurhuleni), Busamed Modderfontein Private Hospital (City of Johannesburg), Hibiscus Hospital (Ugu), Mooimed Private Hospital (Dr Kenneth Kaunda), Capital Hospital (Durban), which will not be covered in full for 2025. Emergency treatment at these 6 hospitals, however, will be covered in full without a co-payment but elective procedures will attract a R8 840 co-payment.

MORE INFORMATION >

Hospital Cover

flexiFED 2 has an unlimited in-hospital benefit. Pre-authorisation must be obtained for all planned hospital admissions. For emergencies, authorisation must be obtained within two working days after going to hospital.

- The in-hospital benefit covers hospital costs and accounts from doctors, specialists e.g. the anaesthetist and the X-ray department.
- It also covers selected procedures in day wards, day clinics and doctor's rooms. Members must use facilities on the Fedhealth Day Surgery Network to avoid a R2 630 co-payment.
- Members on a **GRID** option must use the Fedhealth Hospital Network or pay a co-payment of R15 470 on the hospital account.
- Members on the main option can use any private hospital.

Cover for hospital admissions

- The hospital account is covered from the in-hospital benefit.
- Specialists and GPs on the Fedhealth network are covered in full. Specialists and GPs not on the Fedhealth network are covered up to the Fedhealth Rate.
- Referral by a medical practitioner and pre-authorisation are required for physiotherapy, covered up to the Fedhealth Rate.

Prescribed Minimum Benefits (PMBs)

PMBs are a basic level of cover for a defined set of conditions.

By law, all medical schemes are required to cover the treatment of 270 hospital-based conditions and 27 chronic conditions, i.e. the Chronic Disease List (CDL), in full without co-payment or deductibles, as well as any emergency treatment and certain out-of-hospital treatment.

This means that all schemes must provide PMB level of care at cost for these conditions. In order for members to get funding in full, schemes are allowed to require members to use Designated Service Providers (DSPs) and apply formularies and managed care protocols.

- Fedhealth uses network specialists, network GPs and network hospitals for the provision of PMBs.
- Members must use a Fedhealth Network Specialist and a network GP or nominated network GP, depending on their option, in order for the cost to be refunded in full.
- Should you not use these DSPs for PMB treatment, the Scheme will reimburse treatment at the non-network rate.
- Co-payments are applicable to the voluntary use of non-DSPs. Referral must be obtained from a Fedhealth Network GP for consultations with Fedhealth Network Specialists. If referral is not obtained, there will be a co-payment on specialist claims paid from the Risk benefit. Co-payments are option dependent.

Please note: Qualification for reimbursement as a PMB is not based solely on the diagnosis (condition), but also on the treatment provided (level of care). So although a member's condition may be a PMB condition, the Scheme would only be obliged to fund it in full if the treatment provided was considered PMB level of care.

Co-payments on certain procedures

For some treatments and procedures, members must pay an amount out of their own pocket. Co-payments apply to the hospital account and/or certain procedures.

What qualifies as an emergency?

- An emergency is when the condition is unexpected and requires immediate treatment. This means that if there is no immediate treatment, the condition might result in lasting damage to organs, limbs or other body parts, or even in death.
- Members on on flexiFED 2^{GRID} or flexiFED 2^{Elect} can get treatment for emergency medical conditions at any hospital, but once their condition has stabilised and they can be safely transferred to a network hospital, the co-payment will apply if they opt not to be transferred.

Screening benefit

Fedhealth's screening benefit was created to stretch members' day-to-day benefit by paying more from Risk. This benefit covers the tests and assessments done to help members either prevent illness or address specific conditions they may already have. Consultations are subject to available Scheme benefits.

SCREENING BENEFIT

This benefit covers screenings for:

Women's health

Men's health

Children's health

Cardiac health

Over 40's

Health risk assessments

[MORE INFORMATION](#) >

Screening benefit

Women's Health

Cervical cancer screening (Pap smear)	Women; ages 21 to 65	1 every 3 years
Cervical cancer screening pharmacy consultation	Women; ages 21 to 65	1 every 3 years
HPV PCR test	Women; ages 21 to 65	1 every 5 years

Men's Health

Prostate Specific Antigen (PSA)	Men; ages 45 to 69	1 every year
---------------------------------	--------------------	--------------

Children's Health

Immunisation Programme and administration* (as per State EPI)	Birth to 12 years	Various
HPV vaccine and administration* Cervarix and Gardasil only	Girl beneficiaries aged 9 to 16 years old	2 doses per lifetime

Cardiac Health

Cholesterol screening (full lipogram)	All lives; aged 20 and older	1 every 5 years
---------------------------------------	------------------------------	-----------------

Over 40's

Breast cancer screening with mammography	All lives; aged 40 and older	1 every 2 years
Colorectal cancer screening (faecal occult blood test)	All lives; ages 50 to 75	1 every year
Pneumococcal vaccination and administration*	All lives; aged 65 and older	1 per lifetime

General

Flu vaccination and administration*	All lives	1 every year
HIV finger prick test	All lives	1 every year

Health risk assessments

Wellness screening (BMI, blood pressure, finger prick cholesterol & glucose tests)	All lives	1 every year
Preventative screening (waist-to-hip ratio, body fat %, flexibility, posture & fitness)	All lives	1 every year

* Combined administration of vaccination benefit limit of 15 per family per year

Doctor's room procedures

covered from the
in-hospital benefit

The following procedures will be paid from the in-hospital benefit if performed in a doctor's room or suitably equipped procedure room, at up to 100% of the Fedhealth Rate.

In addition, pre-authorisation must be obtained and should no pre-authorisation take place, reimbursement will be restricted to the member's available day-to-day benefit or self-funded by the member.

This will not accumulate to the Threshold Level.

Procedures performed in a doctor's room or suitably equipped procedure room

- Gastroscopy (no general anaesthetic will be paid for)
- Colonoscopy (no general anaesthetic will be paid for)
- Flexible sigmoidoscopy
- Indirect laryngoscopy
- Removal of impacted wisdom teeth
- Intravenous administration of bolus injections for medicines that include antimicrobials and immunoglobulins (payment of immunoglobulins is subject to the Specialised Medication Benefit)
- Fine needle aspiration biopsy
- Excision of nailbed
- Drainage of abscess or cyst
- Injection of varicose veins
- Excision of superficial benign tumours
- Superficial foreign body removal
- Nasal plugging for epistaxis
- Cauterisation of warts
- Bartholin cyst excision

Get in touch

Fedhealth is at the forefront of technology... not only to ensure clear communication with our members, but also to give members more control over managing certain aspects of their membership.

Fedhealth website

The Fedhealth website, fedhealth.co.za, provides easy-to-navigate information on the various Fedhealth options, step-by-step instructions on how to submit claims etc, scheme news, and also hosts the informative Healthy Living articles – filled with lifestyle and wellness topics.

Fedhealth Family Room

Fedhealth's online member portal allows members to manage their membership by updating contact details, viewing and submitting claims, viewing member statements, seeing how much Fedhealth Savings they've got left, activate the amount of Fedhealth Savings they require, registering for chronic medicine and obtaining hospital authorisations.

Fedhealth Member App

Our app has been designed to help simplify members' interaction with Fedhealth. Available from the Google Play Store, Huawei App Gallery and Apple App store, it lets the member activate the amount of Fedhealth Savings they require, download their e-card, view their option's benefits, set medicine reminders, and lots more. [Click here to download the Member App >](#)

LiveChat

The LiveChat functionality is available to members via fedhealth.co.za. They can type in their queries and one of our LiveChat agents will assist them online.

Fedhealth WhatsApp bot

This Fedhealth service is completely private and secure, and easy to use – simply choose from self-service actions like getting your tax certificate or seeing your e-card to share with your GP. To get started, just add the number **060 070 2479** as a contact and then type 'hi' to get the conversation started.

Network GP, specialist and hospital locator

Members may access the provider locator via the Fedhealth website or the Fedhealth Family Room to find a GP, specialist or hospital on the Fedhealth network. [Click here for provider locator >](#)
